

VC, Prof. Sagir Adamu Abbas with Emir Muhammadu Sanusi II and other dignitaries during the opening ceremony of NALISE conference

NALISE Holds 26th Annual National Conference: *...As BUK VC Calls for Investment on research within LIS profession* *...Emir Surrenders Management of Palace Library to BUK*

By Nura Garba

The Vice Chancellor, Professor Sagir Adamu Abbas, FMAN, has stressed the important roles of libraries and librarians in an era characterized by information overload and rapid technological advancements. He said the ability to effectively research, manage and disseminate information is essential for individuals and organizations.

Speaking at the opening ceremony of the 26th Annual National Conference and Annual General Meeting of the Nigerian Association of Library and Information Science Educators (NALISE) on Wednesday, 16th October, 2024 at the Convocation Arena, the Vice Chancellor, said the sustainability of the Library and Information Sciences profession in Nigeria hinges on the ability to adapt to these evolving reality.

He said the conference provided a valuable platform to discuss the challenges faced and explore innovative approaches to information research and practice.

Presenting the keynote address with the theme: Realities of Information Research and Practices for Sustainability of Library and Information Science Profession in Nigeria, Professor Abdulrashid Garba, said the future is

promisingly bright for information practices, adding that libraries are already embracing an organized digital format.

Prof Garba, who is the Vice Chancellor of Khalifa Isyaku Rabi'u University (KHAIRUN) said the future of academic libraries must transform to align with the current user reality.

According to him, the stark reality is that library and information science are multi-disciplinary and it is a meeting point of historians and cultural anthropologists; science and technologist; and social, economic and behavioral scientists. He said to ensure sustainability of researches and practices in library and information sciences, practitioners must consider themselves as multi-disciplinarians. They must be ready to embrace the soft skill of adaptability to change, which refers to the ability to quickly and successfully embrace change and adapt effectively in response.

The Emir of Kano, Dr Muhammadu Sanusi II, who was the royal father of the day, said he was highly impressed with the conference and the organizers. He expressed dismay over the modern culture that is gradually affecting the reading habit of the teeming youth.

Dr. Sunusi said as part of his desire to instill reading culture among the youths, he would make available his library in the palace open for public use and would surrender its management to BUK.

Chairman of the occasion and the Vice Chancellor, Yusuf Maitama Sule University, Kano, Professor Mukhtar Atiku Kurawa congratulated the NALISE for sustaining the conference for 26 years. He said the theme was apt and timely.

His Excellency, the executive Governor of Kano State, who was represented by the Honourable Commissioner for Higher Education, Dr, Yusuf Ibrahim Kofar Mata donated the sum of N1m for the conference.

The NALISE Chairperson, Dr Uduak Enang, who was represented by the Vice Chairman, Professor Tela Adeyinka commended the management of BUK for providing a veritable platform to conduct the conference.

The Chairman of the Local Organizing Committee (LOC), Professor Manir Kamba expressed happiness over the turnout by the participants and said that the conference would provide an avenue to chart a new course for the library and information science profession in Nigeria.

The Head of Department of LIS, Dr Hauwa Sani expressed gratitude to all those who contributed in making the conference a success.

Prof Manir Kamba Elected New Chairman of NALISE

At the end of the conference, Professor Manir Kamba was elected as the new chairman of the Nigerian Association of Library and Information Science Educators.

Prof Kamba succeeded Dr Eduak Enang, who completed her tenure.

Institutional Impact: **ACEPHAP Trains Public Affairs Staff on Capacity Building**

By Bala G. Abdullahi

As part of its commitment to the implementation of the Disbursement Link Indicators (DLI “Institutional Impact”), the Africa Center of Excellence for Population Health and Policy (ACEPHAP) organized a Three-Day extensive training for staff of the Directorate of Public Affairs of the University.

The training session which took place from Tuesday 15th to Thursday 17th October, 2024 at the Senate Business

He said he was overwhelmed with what he saw in the University and the commitment of the Management towards staff development, explaining that this zeal underscores the secret behind the unparalleled development of BUK in comparison with its contemporary institutions.

The Vice Chancellor, Professor Sagir Adamu Abbas while welcoming the Course Facilitator said the Management

Staff of Public Affairs Directorate in a group photograph with VC and Management staff at the closing ceremony of the training sponsored by ACEPHAP

Committee Room was facilitated by Nurthburg Business Agility, a Professional Development Consulting firm domiciled in Lagos in four different thematic areas - **Event Management and organization, Administrative Excellence in the 21st Century, Increasing Public Speaking Capacity and Improved Writing Skills**. A total of 80 participants attended the three-day training.

Earlier, the course facilitator Dr. Smith Bam had paid a courtesy visit to the Vice Chancellor, Professor Sagir Adamu Abbas on Tuesday, 15th October, 2024 expressed gratitude to ACEPHAP and Bayero University for the opportunity to conduct the training.

has strong commitment for capacity building of its staff.

Professor Sagir noted that any organization yearning for prosperity, must give priority attention to the issue of staff development and capacity building, hence its policy of sponsoring employees to a regular trainings.

The Vice Chancellor explained that a training enhances productivity and efficiency of the workforce which he said is one of the key element of growth and development of the University.

The Head of Public Affairs Directorate, Lamara Garba, told the Vice Chancellor that the programme was

sponsored by the African Centre of Excellence for Population, Health and Policy (ACEPHAP) as part of its commitment for institutional impact programme.

He commended the Director of the Centre, Professor Hadiza Galadanci for her support and commitment to improve the capacity of the staff of the Directorate.

Lamara disclosed that about 80 senior officers were selected to participate in the training exercise. He disclosed that a number of staff from the Public Affairs Directorate have been sponsored by ACEPHAP and Centre for Dryland Agriculture (CDA) to attend training both within and outside the country.

He expressed gratitude to the two centres and particularly the Management of the University for their wonderful support to the Directorate of Public Affairs.

Speaking at the closing ceremony and presentation of certificates to the participants, on Thursday, 17th October, 2024, the Vice Chancellor, Professor Sagir Adamu Abbas said "I understand the training and several others sponsored by the Africa Center of Excellence for Population Health and Policy (ACEPHAP) are part of its efforts to impact positively on the University as its parent institution. This is highly commendable."

He said it gladdens the University Management that the training was coming at a time when the Management was doing everything humanly possible to strengthen and build the capacity of its workforce to make them a tune with the current realities. The ACEPHAP training was like complementing the effort of the University Management in the area of staff training, explaining that the Management would continue to support staff development in order to improve their capacities and output.

Faculty of Agric Hosts 9th CCSN's National Conference

By Nura Garba

The Faculty of Agriculture hosted the 9th National Conference of Crop Science Society of Nigeria (CSSN) on Monday, October 14, 2024 with the theme: "Transforming Crop Production in Face of Insecurity and Economic Crisis: Challenges and Opportunities.

In his address, the Vice Chancellor, Professor Sagir Adamu Abbas said conference of this nature provided a unique platform for the participants to share knowledge, ideas and experiences on the latest developments in crop Science, with the ultimate goal of improving good security, nutrition and sustainable agricultural practices in Nigeria.

He said the theme reflected our commitment to addressing the complex issues affecting crop production, processing and marketing in Nigeria. He, therefore, expressed his gratitude to the presenters, participants and organizers for their contribution to the conference.

The Minister of Agriculture and Food Security, Senator Abubakar Kyari, affirmed that the federal government is implementing decisive measures to mitigate the impacts of climate change and food insecurity, both of which have been persistent issues of concern in the country.

Represented by the Director Federal Department of Agriculture, Engineer Abubakar Garba, said that these efforts

He thanked the resource persons who came all the way from Lagos to carry out the training, assuring that the Management would always look up to them for future trainings of its staff. Professor Abbas urged the participants to take training down to those who were not opportune to attend the training.

Also speaking, the University Registrar, Malam Haruna Aliyu, thanked the ACEPHAP for sponsoring the training, adding that the center had been in the forefront of training administrative staff of the University. He recalled that last year (2023), the Centre trained staff on Computer Appreciation programme and it was closely followed this year (2024) with another training on Report Writing and Presentation. "This is highly commendable. I urge other centers to emulate ACEPHAP," he counseled.

On training, the Registrar disclosed that the Vice Chancellor had become a champion of staff trainings. He said over 400 staff had their capacity strengthened and improved through different training programmes. One of the remarkable training programmes initiated by the Vice Chancellor is the Performance Improvement Training meant to assist staff who could not be promoted due their certain deficiencies. The training was expected to make the affected staff improve their performances and qualify for the annual promotion exercise.

Also speaking, the Resource person, Dr. Smith Bam thanked ACEPHAP for giving him the opportunity to do the training, saying that **Nurthburg Business Agility**, remained grateful for the confidence on them. He added that they are always available and ready to continue to work with ACEPAHP and Bayero University in the area of training and retraining.

would significantly help address the challenges faced by Nigeria's agricultural sector. He noted that the government has established an effective early warning system to predict and prepare for climate-related disasters, among other strategies.

Earlier in a welcome address, he Dean, Faculty of Agriculture, Professor M. A. Hussain gave a brief history of the faculty in which he said was established in August 2001 which started with 3 departments but has metamorphosed now with 8 departments.

He further revealed that the University management out of its objectives for higher level training established the Centre for Dryland Agriculture (CDA) in 2012 to produce highly skilled manpower and research products that will address the challenges of agricultural development, especially within the West and Central African dryland areas.

The President of the Crop Science Society of Nigeria, Professor M. I. Uhuru lamented that the current global food crisis has hit our country hard and that food prices have soared as many communities are facing acute food shortages. He said there are discernible signs of starvation and malnutrition in Nigeria. He advocated the need to increase crop and animal production at both local and national levels, adding that the

conference was organized by the Crop Science Society of Nigeria (CSSN) to reverse the trend of the new agricultural technologies through research efforts tailored towards crop yield improvements.

In a Keynote address, the Vice Chancellor of Capital City University, Prof. Yusuf B. Daraja titled "Innovative Agricultural Practices for Resilience Building in Nigeria's Economy and Security Landscape," affirmed that agriculture reduces unemployment, alleviates poverty and supports Nigeria's broader development goals. He said by modernizing farming techniques, expanding value chains and embracing sustainability, the country can fully harness its agricultural potentials for a prosperous future.

Prof. Daraja also urged the farmers to adopt innovative practices which include climate-smart agricultural techniques, diversifying crops, engaging in value addition and participating in farmer organizations or cooperative to access shared resources and knowledge and to also utilize digital platforms for accessing market information, weather updates and extension services so as to make informed decisions and improve efficiency.

The Director General, National Agricultural Seeds Council of Nigeria, Dr. Ishiak Othman Khalid, presented the lead paper 1 which was titled: "Seeding the Future: Prospect and Challenges of Seed Production for Sustainable Food Security in Nigeria." He explained the types of seeds produced and

Professor Yakubu Azare Gets Fellow of Linguistic Association of Nigeria

Professor Yakubu Magaji Azare, Director Centre for Research in Nigerian Languages, Translation and Folklore was honored and inducted as a fellow of the Linguistic Association of Nigeria (LAN).

He was decorated by the President LAN Prof. Imelda Udoh at the 35th Annual Conference which took place on Tuesday, 15th October, 2024 at Alqalam University, Katsina.

The Linguistic Association of Nigeria is the highest recognized body of Scholars in Language studies.

their production prospects in Nigeria. He called for active implementation of government policies and initiatives and sustainability of technological advancements in seed production and development that will reflect on the economic benefits and the potential for increased agricultural productivity of Seeds in Nigeria.

Prof Khalid discussed at length the challenges facing seed production in Nigeria and provided successful programs in developing countries like India and Brazil that could be adopted.

The Chairman of the occasion, Alhaji Munir Babba Dan Agundi, Rahama Integrated Farms, it was to improve farming and come up with new methods of farming on the theme. Especially the insecurity despite security situation, feed the nation, farmers benefit with.

Hajiya Dr. Salamatu Garba, Executive Director, Women Farmers Advancement Network (WOFAN) who had earlier received an award for recognition of her immense contributions and leadership in the agricultural industry in Nigeria, presented the lead paper 2, which reflected on "Empowering Women and Vulnerable Youth Through Post-Harvest Value Addition of Crop Produce: Opportunities, Challenges and Strategies" in the closing round of the conference. Her paper established women and youth as the pillars of agriculture for playing essential roles in crop production, harvest and post-harvest activities including

World University Ranking: We Envy BUK ... Says VC KHAIRUN

By Lamara Garba

The pride of any right thinking person is to have a society with well functional institutions of learning, which is the reason why, we are always proud of the status of Bayero University, the Vice Chancellor of Khalifa Isiyaku Rabi'u University Kano, Professor Abdurashid Garba, has said. According to him, KHAIRUN University is particularly elated with the current feat of BUK in the recently released global ranking by the Times Higher Education (THE).

In a statement signed by the Vice Chancellor, Professor Abdurashid Garba congratulating the University on what he described as a remarkable achievements of emerging among the top 10 in Nigerian Universities noted that "this prestigious honour did not only brings pride to your esteemed institution but also to African continent as a whole."

Prof. Abdurashid Garba, VC Khalifa Isiyaku Rabi'u University (KHAIRUN)

“On behalf of the Council, Senate, Management, Staff and Students of this university, I write with immense pleasure to extend our heartfelt congratulations to you personally and to the Management of Bayero University, Kano, on its remarkable achievements in the World University Ranking,” the letter reads in part.

He noted that the feat recorded by BUK is a sign of commitment and hardwork from the side of the Management and staff of the University, under the leadership of Professor Sagir Adamu Abbas.

"BUKs score of 48.8 in the international outlook which surpasses even the first generation institutions in that

CDA Celebrates 2024 World Food Day

By Nura Garba

The Centre for Dryland Agriculture (CDA) marked the World Food Day with a Symposium on Wednesday, October 16th, 2024 at the Centre's Conference Hall, Bayero University, Kano, New Site.

The Symposium which had its theme as "Right to Food for a Better Life and Future" featured several paper presentations that served as indicators and parameters contributing to food security as deduced from the theme.

A cross section of the participants of the Symposium at the CDA Conference Hall

The speakers who consisted of experts and academicians in the agriculture industry respectively presented.

In a remarks, Director of the Centre For Dryland Agriculture (CDA), Prof Jibrin Mohammad Jibrin emphasized that the theme of the program spotlighted the importance of food diversity, nutrition, affordability, accessibility and sustainability. He contributed a great deal to some of the topics delivered by the presenters as the Host and moderator of the event. He later suggested a big and open dialogue session where important experts and stakeholders will be engaged in order to discuss the challenges and prospects of agriculture on a wider scale by aiming to explore and implement the productive agricultural practices.

Meanwhile, Yemi Akinbamijo, PHD, Former Executive Director, Forum for Agricultural Research (FARA) had earlier enlightened the audience through a Zoom Conference Call on "Food Security as an Outcome of Rural Productivity" in which he stressed some thought

category is truly a testament to the administrative acumen and also of the university's unwavering commitment to excellence in education, research and global engagement," said Professor Abdurashid Garba.

He explained that the high grades the university attained in teaching, has no doubt, further highlights Bayero university's dedication to fostering an enriching academic environment that equips students with the tools and knowledge necessary to make impactful contributions to the society.

Professor Garba said "this is indeed a highly prestigious honour that, not only brings pride to the esteemed university but also the African continent as a whole."

provoking points and provided the environmental impacts of food and agriculture and clamored for the power of collaboration, increased application of science, technology and innovation, serious attention to labor productivity and biotechnology.

Also speaking through virtual call, Mr Ayodele Balogun contributed to the subject of presentation as he affirmed that the rural population is 46% of the total population through the graphical slides he projected and then highlighted the effect of government's ignorance of food production and sustainability leading to inflation and recommended that policy should support investment to improve rural productivity.

Adnan Aminu Adnan, PHD, Faculty of Agriculture, Bayero University, Kano further delivered "Forecasting Production, Demand, Consumption of Priority Value Chains in Nigeria (2023 - 2030): Agri-Inputs and GAPs as Pivots of Growth" which had him established Forecasting as being crucial to policy making through his pictorial presentation and maintained that improvement of major commodities must put regions into consideration, quality forecasting for desired results, GAPs and financing especially for agri-inputs and business is essential to reach deficit production, maize requires large investment in land while others attract little and investment in GAPs and financing could meet all priority commodities by 2030 except for maize.

Professor Aminu Suleiman outlined the benefits of forecasting in policy making and implementation to agricultural development, its use in planning even distribution of agricultural commodities and. He stressed the practicalities of food forecasting models however opined that they could sometimes be unable to predict economic and environmental outcomes. Therefore, he called for robust models and methodologies and accurate data and collaboration among the states for accurate forecasting that represent zone as well.

Prof Abubakar Jimmei, University of Maiduguri, who spoke virtually, urged the CDA to collaborate with local, national and international organizations on insecurity, climate change and environmental factors as it'll improve food production, empower farmers and boost the nation's economy. Recall that an interactive session happened at intervals throughout the program.

BUK to Sign MOU With Lotus Capital Limited

Diversifies Sources of Funding - Vice Chancellor

By Ibrahim Ado Saleh

The Bayero University Kano Management on Tuesday, 2nd October, 2024 received a team from Lotus Capital Limited as part of the efforts to establish collaboration between the two organisations.

LOTUS capital Limited is an ethical investment firm and a pioneer of Islamic finances in Nigeria, dedicated to fostering sustainable and socially responsible alternative investment opportunities.

BUK Abubakar Rasheed Senate Building

In his remark, Aminu Abdulhakeem, the Business Development Manager of LOTUS Capital, stated that the visit was to explore potential avenues for collaboration with Bayero University, given the institution's esteemed reputation for academic excellence and commitment to societal development.

Mr Aminu said LOTUS Capital had different equitable market investment opportunities. "We have Mutual funds or the Halal Fixed and the Mudarabba Investment. The Mutual funds/halal fixed guarantees profits and the return is designed on quarterly basis, and on good thing is certain all money is invested in accordance to the Sharia," he added.

Responding, the Vice Chancellor, Professor Abbas, welcomed the team and informed them that their visitation came at a time when Universities were shifting from their traditional design to a new order.

"Universities were designed to spend money, but gradually the federal government is withdrawing from funding that support,, therefore there is need to shift and adjust by way of finding alternative sources of funding the Universities. These funds were used to take care of the students and the environment, including their Hostels, water supply, power supply, lecture Halls among others," said the Vice Chancellor.

He explained how difficult it was to run the affairs of the University, especially in this challenging economic situation, taking into consideration the increasing number of students seeking for admission thus making the Universities find another sources to support the system to stand on its feet.

The two organisations agreed to write a memorandum of understanding, which would kick-start the collaboration and be handled by the Deputy Vice Chancellor, Management.

DAP, ITF Organize Orientation for Students on SIWES

By Fausat A. Opayomi

The Directorate of Academic Planning organized an orientation training for 2023/2024 BUK students going for the Students Industrial Work Experience Scheme (SIWES) on Thursday 3rd October, 2024 at the Convocation Arena. The training was facilitated by officials from ITF.

The Head of training, ITF, Haruna Abdullahi, guided the students on what they were supposed to do during the training and explained what SIWES instruments were and also how their log book should be handled.

The SIWES Accountant of the Kano/Jigawa Area Office, ITF, Yakubu Sani, talked on the allowances to be given to students at the end of the program. He urged them to pay attention and take the training seriously by following all the guidelines and look for ways to be creative and to earn money, adding that the program was an academic activity that must be passed with or without payment.

According to him, students must have account numbers with any commercial bank and that account name must be

Officials from the Academic Planning Directorate and ITF in a group photograph

the same as registered in school. He said 4 log books must be filled for two weeks.

Hajiya Mairo Muhammad from Food Science and Technology advised the students to adhere to the instructions given. She urged them to be good ambassadors of their school and of good character by doing what their parents would be proud of.

During a question and answer session, some students raised concern that they found it difficult to secure a place for their training.

Hajiya Halima Ismail, the Head of Training, ITF, in her response said there were many relevant places in the area of their studies where they could work. She encouraged

them to go to ITF to get letters of introduction to the places they wish to serve.

Dr. Hassan A. Bashir, the SIWES Coordinator, BUK expressed appreciation to the ITF team for the experience shared and the detailed guide to the students on the SIWES program.

BUK Investment Club, CFA Holds Sensitization Lectures on Membership

By Fausat A. Opayomi

Investment Society, Bayero University, Kano in collaboration with Chartered Financial Analyst (CFA) organized a lecture for students on Tuesday 8th October, 2024 at the PG Hall of the Department of Accounting.

Speaking at the event, Professor Kabiru Isa Dandago said the gathering was designed to encourage students, who are the future leaders in the accounting profession to understand and be professionally involved in investment management.

He said the CFA, which was well known globally but more visible in Lagos and Abuja in Nigeria, had members who were highly respected and recognized as investment financial expert.

He said Investment Society was a student platform to market their society with the expectation that the body would be promoted to a larger world. He urged them to start the process of becoming members of CFA and also encouraged the students to join as many professional bodies as possible so as to allow their brains to expand with lots of ideas.

Munzali Abubakar Bello of the African Finance Corporation, who is a member, CFA and an alumnus of BUK spoke virtually. He said being a member of CFA was exciting and rewarding because it had opened many doors of opportunity for him.

Munzali, who worked at CBN for 10 years, said that he was able to discover himself, build confidence and also express himself as a member of CFA.

Buba Muhammad of Islamic Development Bank, Saudi Arabia, an Alumnus of BUK, who also contributed to the discussion virtually, said his teachers in BUK gave him an opportunity to thrive and that the lecture was an opportunity to give back to the University.

He congratulated the BUK investment club for the initiative and urged them to prepare for the challenges ahead.

Yemi Ajagun, who was a lead presenter, spoke on how to earn CFA membership and create opportunities as students to accelerate their success. He said CFA had 400 members across the nation and about 150 of them had left the shores of the country to work in highly valued organizations.

He said the mission of CFA was to promote the highest

Official from the Department of Accounting and CFA in a group photograph

standard of investment practice in Nigeria and a vibrant community for interaction and professional development of members.

Earlier, the HOD, Accounting in her remarks, said the program would be an interactive session, which would also disclose the step to follow to qualify as a Chartered Financial Analyst (CFA) member and benefits to derive as a member.

APPRECIATION FROM PROF. ADO YUSUF ABDOLFATAH

I would like to thank all members of the University community who paid us condolence visits and those who sent in their prayers over the death of our mother. May Allah bless our remaining life to serve humanity.

I would also seize this opportunity to appreciate the good-will messages that I received on my
